

## Header Data

**Released On**    15.12.2009 11:22:56  
**Release Status** Released for Customer  
**Component**    SCM-APO-FCS Demand Planning  
**Priority**        Recommendations / Additional Info  
**Category**       Consulting

## Symptom

You want to distribute key figure values in APO Demand Planning (DP) or APO Supply Network Planning (SNP) over different CVC's for a specific product and time period. Value distribution is possible in edit and display planning mode.

For example you want to shift allocation quantities easily for one product (or other characteristic) from one region to another region.

## Other Terms

Allocation, Allocation Distribution, Value Distribution, Disaggregation, CVC, APO, DP, SNP, planning book

## Reason and Prerequisites

This function does not exist in the standard SAP system.

## Solution

An add-on was developed as part of a consulting solution, which you can purchase for a fee. See the attached PDF document for further details.

## Validity

Software Component	From Rel.	To Rel.	And Subsequent
SCM	500	500	<input checked="" type="checkbox"/>
	510	510	<input checked="" type="checkbox"/>
	700	700	<input checked="" type="checkbox"/>
	701	701	<input checked="" type="checkbox"/>
