

Header Data

Released On 19.03.2009 07:57:14
Release Status Released for Customer
Component SCM-APO-FCS-LCP Lifecycle Planning
Priority Recommendations / Additional Info
Category Consulting

Symptom

You want to make it easier manage the life cycle master data maintenance for SAP APO Demand Planning (DP).

Other Terms

Lifecycle, like profile, phase in, phase out,

Reason and Prerequisites

You find it too difficult to maintain lifecycle master data. You need to execute three independent steps (like profile, phase out/phase in profile, assignment). This is too much. You are also constantly locked using the standard transaction during the maintenance and cannot navigate to a specific data record.

Solution

An add-on was developed as part of a consulting solution. This add-on simplifies the master data maintenance for APO DP lifecycle master data significantly and can be purchased for a fee. See the attached PDF document for further details.

Validity

Software Component	From Rel.	To Rel.	And Subsequent
SCM	510	510	<input checked="" type="checkbox"/>
	700	700	<input checked="" type="checkbox"/>
